

In the Shadow of the Mountain of God

A deep exploration into the exquisite culture of the peoples of East Africa

Oldoinyo Lengai, an active volcano in the Great African Rift, is the sacred mountain of the Maasai and overlooks the most important land of our ancestors. Jim will explore primitive African peoples still carrying out their ways of life in today's world of technology and strife. He will take you to some of the most beautiful parts of our planet far removed from the normal tourist venues.

In March of last year Jim happened upon a set of Hominid trackways in the shadow of Lengai. This led to the realization through Argon/Argon dating that what he found were tracks 125,000 years old, some of the oldest footprints of our species – Homo sapiens - on the planet.

Proceeds from the evening lecture will benefit the Pennsylvania Institute for Conservation Education (PICE), a 501(c)(3) nonprofit organization dedicated to advancing awareness, knowledge and skills in natural history and conservation of natural resources by building an ecologically literate and engaged public. Meet Jim Brett and the PICE staff during a special wine and cheese reception prior to the lecture. Tickets for the reception must be purchased in advance. Preregister for tickets and the special reception by **September 24**.

LECTURE

7:30 PM, October 22, 2009

Schaeffer Auditorium, Kutztown University

Advanced Lecture Ticket Reservation*: \$15 per adult

Tickets at the Door: \$25 per adult, \$5 for students with ID

Children under 12 accompanied by parent(s) receive free admission.
